

Panelmaster® Fastening System
Post-Frame Metal Panel Attachment

Install metal panels in a faster, safer method with Panelmaster from SFS intec.

Improved ergonomics over standard panel attachment techniques combined with fast, consistent fastener placement make the Panelmaster Installation System a must for the builders who want to provide the most advanced products for their crews and business.

Belted Fasteners

- SFS intec fasteners 1" through 3" lengths with sealing washers
- Can be painted to match any panel color
- All fasteners packaged 500 per carton

Benefits

- Increased speed of installation
- Improved working ergonomics
- Stand-up roof attachment
- Fasteners installed uniformly every time
- Special footpieces available for attachment through the panel rib
- Installs fasteners 1"- 3" long
- Now available in new VistaCoat™ Premium System
